JANUARY corresponds to July in Great Britain. It is usually one of the hottest months of the year, and is marked by frequent thunderstorms. In January 1879, the weather was cooler than usual during the month, the mean shade temperature, 77.3 deg., being 1.3 deg. under the average of this month for the previous ten years, and 1.9 deg. under the average of the previous three years. The highest reading in shade, 94.0 deg., was on the 13th; the lowest

on grass, 57.0 deg., was on the morning of the 16th. The mean barometric reading, 29.952 inches, was 0.039 inches above the average of the month; the highest, 30.226 inches, was at 9 p.m. on the 15th and the lowest, 29.740, at 3 p.m. on the 22nd. Rain fell on 21 days; the total fall, 6.97 inches, being 0.02 inches over the average of the month for the previous ten years; the maximum fall during 24 hours, 2.38 inches, was on the 27th.

GARDEN, ORCHARD, AND FARM CALENDAR FOR JANUARY.

Written expressly for Slater's Almanac by Albert John Hockings,

Author of the "Queensland Garden Manual," "The Flower Garden in Queensland," &c.

GARDEN AND ORCHARD.—Dig deeply all unoccupied beds, turning in all such Garden refuse as will add to the fertility of the soil by its decay. Heavy soil is much improved in texture when thrown up roughly and exposed to the influence of the summer's sun; being rendered more friable. Fork between the rows of vegetables when the soil has become hard after heavy showers. Water vegetables freely in dry weather, giving occasional dressings of liquid manure. Do not splash the surface of the ground only; but, when water is given to a plant, see that it reaches the root. In favorable weather sow French beans, brocoli, cabbage, carrot, cauliflower, celery, mustard, cress, lettuce, endive, okra, peas, parsnip, parsley, radish, salsify, scorzonera, prickly spinach, turnips, Brussels sprouts, and a few cucumber, vegetable marrow, and melon seeds, for late crop. Plant out cauliflowers, cabbages, &c., laying a leaf over each to protect it from the sun for a day or two. Gather herbs for drying, also onions, garlic, and eschalots, as the tops die

down. Peach, apple, and other trees should be formed during summer by disbudbing with the finger and thumb when the shoots are ill placed, and by nipping off the ends of those which are too long or over vigorous. Vines should be tied as they grow to protect them from injury by high winds, and in doing this be careful to arrange the foliage, so as to shelter the fruit from the direct rays of the sun. Gather grapes, peaches, and apples, as they ripen. Vigorous shoots of the Isabella grapes may still be pruned to produce a second crop. Vines layered now are likely to make good roots before winter. Cuttings of any valuable new sort which it is wished to multiply quickly, should be put in during this month in favorable weather. Carefully remove suckers from vines and fruit trees.

FIELD.—Destroy weeds before they seed; break up land in preparation for future crops; sow Cape barley, rye, and oats, for green fodder, and maize for a late crop. Keep growing crops clean.

FEBRUARY corresponds to August in Great Britain; the weather is generally excessively hot and sultry with a humid atmosphere. In February 1879 the weather was warmer than usual during the month: the mean shade temperature, 79.1 deg., being 1.7 deg. over the average of this month for the previous ten years, and 1.7 deg. over the previous three years. The highest reading in shade, 100.0 deg. was on the 23rd; the lowest on grass, 62.0 deg., was on the morning of the 4th. The

mean barometric reading, 29.907 inches, was 0.006 inches above the average of the month for the previous ten years; the highest, 30.169 inches, was at 9 p.m. on the 25th, and the lowest, 29.515 inches, at 3 p.m. on the 16th. Rain fell on 17 days; the total fall, 2.64 inches, being 5.49 inches under the average of the previous ten years. The greatest fall in 24 hours, 0.53 inches, was on the 26th. The total rainfall of the year 1879, up to 28th February, was 9.61 inches, on 88 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR FEBRUARY.

GARDEN AND ORCHARD.—This should be an active month. Dig roughly all unoccupied beds which have been previously trenched, adding well decomposed manure. Transplant cabbages, Brussels sprouts, cauliflowers, celery, &c. Sow French beans, beet, Brussels sprouts, carrot, cauliflower, celery, mustard, cress, lettuce, radish, prickly spinach, endive, onion, peas, parsnip, and turnip. Mulch the melon and cucumber holes with a dressing of longstable manure; form the surface between the holes so as to catch water during thunder showers. In very dry weather, when the plants appear to suffer, give ten to twenty gallons of water in the evening to each hole, so that they may be thoroughly soaked, applying the water so that it may get into the soil where the roots are. Gather seeds as they ripen. Cucumbers, melons, French beans, &c. should be gone over daily, and gathered as soon

as they are ready, whether they are required or not; for if left on to perfect their seeds the plants cease to be productive. The fruit should be thinned from Hockings' canvase and greening apples, and the branches carefully propped, lest the trees be broken by its weight. Finish budding trees which are intended to stand over until spring. Collect leaf mould for use when planting fruit trees during the approaching winter. Loosen ties of budded trees.

FIELD.—Continue to prepare land, ploughing it deeply. Lucerne may be sown in clean well-ploughed deep soil. Vetches or tares, Cape barley, and sorghum should be sown for green food for stock. In sheltered and warm positions 90 day maize may be sown. Early potatoes may be planted whole. Keep the land clean, and hill up maize.

MARCH corresponds to September in Great Britain, and begins to show a pleasant decrease in temperature. In March, 1879, the weather was cooler than usual, the mean shade temperature 74.8 deg., being 0.4 deg. under the average of this month for the previous ten years, and 1.3 deg. under the previous three years. The highest reading in shade, 91.0 deg., was on the 27th; the lowest on grass, 55.0 deg., was on the morning of the 19th. The mean barometric readings were above the average of

the month; the highest 30.266 inches, was at 9 a.m. on the 21st and the lowest, 29.708 inches, at 3 p.m. on the 5th. Rain fell on 19 days; the total fall, 5.53 inches, being 2.94 inches under the average of the month for ten years, and 2.40 inches under the previous three years. The greatest fall in 24 hours, 1.52 inches, was on the 6th. The total amount of rain that fell in the year 1879, up to 31st March, was 15.14 inches, on 57 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR MARCH.

GARDEN AND ORCHARD.—If previous instructions have been followed, the seed beds will be full of young plants, and there will be sufficient land well dug and manured ready to receive them. Plant out cabbages, cauliflowers, Brussels sprouts, celery, &c., in favorable weather. Keep the beds free of weeds by frequent and deep hoeing. Give asparagus beds a dressing of salt. Transplant eschallots. Sow English beans, French beans, beet, carrot, mustard, and cress, celery, lettuce, endive, leek, onion, peas, parsnip, radish, prickly spinach, turnip, couve troncluda, savoy, &c. Make note of fruit trees or vines that have been sickly or unproductive during the season, so that they may be manured, syringed, scrubbed, pruned, or grubbed out as the case may demand. An unprofitable, unsightly, or inferior tree should not be allowed to cumber the ground. No crops should be grown near fruit

trees. Orange trees are often killed by digging about them. All land intended to be planted with fruit trees during the approaching season, should be trenched and manured ~~this month~~ if not already done. All stiff or retentive soils should be carefully drained six inches deeper than they are trenched, regardless of the inclination of the surface. It should be remembered that the roots of the trees will be *under* the surface, where the water will be retained, unless drainage be provided. Orange trees in a state of rest may be transplanted this month.

FIELD.—Sow lucerne, clover, rye grass, prairie grass, oats, barley, wheat, vetches or tares and sorghum. Sow main crop of potatoes. Hoe early potatoes; gather maize as it ripens; cut tobacco leaves as they arrive at maturity. Sow mangold and Swede turnips for winter food for stock.

APRIL corresponds to October in Great Britain; cool weather is now setting in, and nights are frequently chilly. In April 1879 the weather was much cooler than usual during the month; the mean shade temperature, 69° deg., being 1·3 deg. under the average of this month for the previous ten years, and 2·4 deg. under the previous three years. The highest reading in shade, 87·0 deg., was on the 12th; the lowest on grass, 53·0 deg., was on the morning of the 15th. The highest barometric reading, 30·388, was at 9 a.m. on the 16th, and the

lowest, 29·781 inches at 3 p.m. on the 10th. The mean barometric reading, 30·141, was 0·081 inches above the average of the month for the previous ten years. Rain fell on 24 days; the total fall, 6·31 inches, being 2·21 inches over the average of the month for the previous ten years, and 3·99 inches over the previous three years. The greatest fall in 24 hours, 1·35 inches, was on the 10th. The total amount of rain which fell in the year 1879, up to April 30th, was 21·58 inches, on 61 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR APRIL.

GARDEN AND ORCHARD.—Keep down weeds by continual hoeing. Thin out plants that are overcrowded. Divide and plant out pot herbs, giving water if requisite, until they are established. Plant out cabbages, cauliflowers, &c., in favorable weather. Sow English beans, mustard, and cress, lettuce, endive, leek, onions, peas, radish, &c., for succession. Sow hardy annual flower seeds. Evergreen shrubs, roses, and bulbs, may be planted. Where practicable the transplanting of fruit trees should now be proceeded with; and, if done with care, they will soon emit new roots and be established in their positions before

the final fall of the leaf. This applies especially to evergreen fruit trees, such as lemons, oranges, dates, mangoes, loquats, olives, tamarinds, &c. Prop up bananas which have heavy bunches of fruit, as they are apt to be blown down by the winds now prevailing.

FIELD.—Sow vetches, lucerne, wheat, barley, oats, mangel, and Swede turnips. Gather sorghum and milpee as they ripen, or the birds will either consume or scatter it. Plough land for future crops. Cut and house tobacco as soon as it arrives at maturity.

MAY corresponds to November in Great Britain. The Queensland winter may now be considered as having begun. Weather generally cool and enjoyable. In May, 1879, the weather was slightly cooler than usual during the month; the mean shade temperature, 63.2 deg. being 2.3 deg. under the average of this month for the previous ten years, and 2.2 deg., under the previous three years. The highest reading in shade, 81.0 was on the 24th; the lowest on grass, 43.0 deg., was on the morning of the 3rd. The highest barometric reading, 30.154 inches was

at 9 a.m. on the 7th, and the lowest, 29.732 inches, at 3 p.m. on the 11th. The mean barometric reading, 29.917 inches, was 0.039 inches above the average of the month. Rain fell on 6 days; the total fall, 9.25 inches, being 6.13 inches over the average of the month for the previous ten years and 0.21 inches under the previous three years. The greatest fall in 24 hours, 5.62 inches, was on the 9th. The total amount of rain which fell in the year 1879, up to 31st May, was 31.94 inches, on 66 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR MAY.

GARDEN AND ORCHARD.—Transplant onions, garlic, eschalots, rhubarb, &c. Sow lettuce, endive, leek, onion, peas, radish, mustard and cress, cabbage, turnip, carrot, parsley, and pot herbs. Dig beds intended for asparagus. The onion crop sometimes suffers severely from the ravages of a green grub which is in some soils in large numbers. They come forth at night and cut off the young onions level with the surface as if cut off with a knife. Land intended for this crop should be previously examined for these pests, and if possible receive a dressing of soot, which would not only prove very obnoxious to the grubs but would be a valuable manure for the onions.

Transplant fruit trees and evergreen shrubs. Do not plant too deep: put fine mould among

the roots, making it firm, using water copiously unless the soil is wet. Transplant strawberries into leaf mould or well decayed cow dung, giving them abundance of water during their growing season. In cold situations, protect tropical fruit trees, and throw a little hay over the pine apple plants, with the same object.

FIELD.—Sow vetches, barley, oats, rye, wheat, lucerne, and other grasses. Cut tobacco. Earth up potatoes. Rye, as green fodder, is much relished by cattle and horses, and if not allowed to go to seed, it will make a good sward for grazing over, being green and succulent during winter and early spring.

JUNE corresponds to December in Great Britain; weather generally cool, with fine clear nights and sometimes heavy dewfall. In June 1879 the weather was much colder than usual; the mean shade temperature, 58.9 deg., being 1.7 deg. under the average of the month for the last ten years, and 0.9 deg. under the last three years. The highest reading in shade, 78.0 deg., was on the 11th; the lowest on grass, 36.9 deg., was on the morning of the 9th. The highest barometric reading, 30.302 inches, was at 9 a.m. on the 13th, and the lowest, 29.307 inches, at 9

a.m. on the 24th. The mean barometric reading, 30.053 inches, was 0.065 inches under the average of the last ten years. Rain fell on 5 days: the total fall, 4.56 inches, being 1.25 inches under the average of the month for the last ten years, and 2.25 inches over the last three years. The greatest fall in 24 hours, 3.93 inches, was on the 24th, when a severe hurricane swept over the whole of Southern Queensland doing much damage. The total rain fall, up to 30th June, was 35.26 inches, on 92 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR JUNE.

GARDEN AND ORCHARD.—No colonial grown cabbage seed should be sown until after September, as it runs to seed when the plants are ready to heart. The English seed does not run until the second season, and will therefore heart perfectly. Transplant horseradish, eschalots, rhubarb, strawberries, seakale, &c. Dig over old rhubarb, seakale, and asparagus beds giving them plenty of good rotten manure. Sow broccoli, Brussels sprouts, cabbage, red cabbage, cauliflower, lettuce, endive, peas, English beans, radish, &c. To grow water cresses, dig a trench, as if for celery: turn in abundance of well decayed manure at the bottom, sifting some fine soil over it, and dibble the cuttings in at a foot apart. give the whole a good watering. Orange trees which are not in good health, should have their trunks and large branches scrubbed with a scrubbing brush, and washed clean before the spring growth commences. The surface soil, to the full circuit of the foliage of the tree, should have a

dressings of stable manure. Apple trees afflicted with American blight should have the earth removed from the roots near the surface, and they should be painted with castor oil or strong Gishurst Compound. Some sorts of apple are "blight proof," and these should have the preference when planting, as far as practicable; and the others should be worked upon stocks which are blight proof. Transplanting fruit trees and vines should be proceeded with vigorously. Prune fruit trees and vines, protect bunches of bananas in cold situations, by covering each with a light bag open at the bottom.

FIELD.—The arrowroot will fill out rapidly as the cold checks the growth of the top. Sow oats, lucerne, rye grass, vetches, prairie grass, &c. Prepare land in warm situations for sowing with maize and planting with potatoes next month. Late sown wheat often escapes rust and other ills which affect earlier crops.

JULY corresponds to January in Great Britain, and like it, is the coldest month of the year, though the sun has considerable power in the middle of the day. In July, 1879, the weather was warmer than usual during the month, the mean shade temperature, 59.5 deg., being 0.4 deg. over the average of this month for the previous ten years, and 0.6 deg. under the previous three years. The highest reading in shade, 76 deg., was on the 17th; the lowest on grass, 34.0 deg., was on the morning of the 11th. The mean barometric reading, 30.155 inches, was

0.19 inches above the average of the month; the highest, 30.489, was at 9 a.m. on the 13th, and the lowest, 29.899 inches, at 3 p.m. on the 6th. Rain fell on 9 days; the total fall, 3.18 inches, being 0.25 inches under the average of the month for the previous ten years, and 0.20 inches over the previous three years. The greatest fall in 24 hours, 1.43 inches, was on the 25th. The total amount of rainfall during the year 1879, to 31st July, was 38.44 inches, on 101 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR JULY.

GARDEN AND ORCHARD.—Plant asparagus beds. Sow cauliflower, carrot, beans, lettuce, endive, radish, spinach, &c. On sowing seeds after rain, see that the land is in a friable condition. If too wet it will clog and bind together. Plant out onions and eschallots. Three or four days after planting, rake the soil between the rows in dry weather: it will kill thousands of young weeds. Finish pruning fruit trees and vines. Plant out fruit trees and vines, and cuttings of grape vines, and such trees as are propagated in that manner. Graft young orange trees. The Seville orange forms the best stock upon which to graft approved sorts. Prepare land hitherto neglected, that all planting may be finished by the end of next month if possible. Eradicate docks, and give a dressing of salt to the vines and fruit trees, lightly forking in well-decayed manure where necessary.

FIELD.—Finish planting lucerne. Sow oats, vetches, &c. Prepare land for potatoes, maize, tobacco, sugar-cane, carrots, mangel wurzel, chicory, &c. Plant potatoes and maize. Take up and prepare arrowroot as the crop matures.

HINTS.—Never grow the same crops, nor crops of the same family twice on the same spot, without an intervening crop of a different nature.

Never transplant shrubs or trees in a growing state. However carefully it may be done the check is dangerous and often fatal.

Let the drainage of the ground be your first care. It is impossible to succeed to any extent with vegetables or flowers, when the water is stagnant in the soil.

AUGUST corresponds to February in Great Britain, and is for the most part cold, but towards the end a rise in the temperature may be noticed. In August 1879 the weather was warmer than usual, the mean shade temperature, 62.9 deg., being 1.1 deg. over the average of this month for the previous ten years, and 0.6 deg., under the previous three years. The highest reading in shade, 83.0 deg., was on the 31st; the lowest on grass, 42.0 deg., was on the morning of the 8th. The highest barometric reading, 30.384 inches, was at 9 p.m. on the 19th, and the lowest,

29.752 inches, at 3 p.m. on the 13th. The mean barometric reading, 30.095 inches, was .043 inches lower than the average of the month. Rain fell on 16 days; the total fall, 14.67 inches, being 13.68 inches over the average of the month for the previous ten years, and 13.72 inches over the previous three years. The greatest fall in 24 hours, 4.84 inches, was on the 28th. The total amount of rainfall during the year 1879, to 31st August, was 53.11 inches on 117 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR AUGUST.

GARDEN AND ORCHARD.—Peas sown this month should have a cool aspect. A dressing of salt at this season at the rate of 7 or 8 lbs. to the perch would be a great advantage to most soils, tending to sweeten the land, destroy insects, discourage weeds, fungus, and mildew, and to retain moisture.

Sow beet, broccoli, melons, Brussels sprouts, cucumber, lettuce, endive, okra, parsley, pumpkins, vegetable marrow, radish, rhubarb, round spinach, tomato, tobacco, carrot, (large sowing), leek, cabbage, cauliflower, chervil, turnip, parsnip, &c. Plant out horseradish, rhubarb roots, herbs, sea kale, asparagus, Jerusalem artichokes, ginger, &c. Destroy weeds while young, and sy-

ringe with Gishurst compound, plants which are attacked by aphids. Endeavour to finish planting fruit trees, vines, and other plants, as the sun will be gaining power, which will increase the labor and risk. Young orange trees which show too much bloom should have it removed, and should receive a little liquid manure to promote foliage. Graft China pears, as they break very early.

FIELD.—Keep the crops clean. Plant potatoes, maize, rice, yams, arrowroot, &c. Hoe up potatoes. Sow sorghum, imphee, teosinte, and tobacco. Silk worms will now require constant attention, feeding them frequently with young and tender leaves.

SEPTEMBER corresponds to March in Great Britain. In September 1879 the weather was a little warmer than usual during the month, the mean shade temperature, 67.0 deg., being 0.5 deg. over the average of this month for the previous ten years, and 1.3 deg. under the previous three years. The highest reading in shade, 84.0 deg., was on the 24th; the lowest on grass, 43.0 deg., was on the morning of the 28th. The highest barometric reading, 30.308 inches, was at 9 a.m. on the 1st, and the lowest,

29.644 inches, at 3 p.m. on the 16th. The mean barometric reading, 29.984 inches, was 1.02 inches under the average of the month. Rain fell on 14 days; the total fall, 4.57 inches, being 3.01 inches over the average of the month for the previous ten years. The greatest fall in 24 hours, 1.33 inches, was on the 6th. The total rainfall for the year 1879 to September 30th was 57.68 inches on 131 days. In 1878, the rainfall to September 30th was 37.68 inches, on 85 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR SEPTEMBER.

GARDEN AND ORCHARD.—As summer grass and other summer weeds now make their appearance, it is important to keep the land thoroughly clean. Take every opportunity to collect manure of all kinds, to be thrown into well-puddled tanks to rot down for use in autumn and winter. Valuable lessons may be learned from the Belgian farmers upon this important but much neglected subject. The Japanese are also vastly superior to us in the knowledge and practice of manuring. During the summer months in this Colony manure should generally be applied in the liquid form. See that crops are not planted too closely so as to be crowded. Trench vacant land, in preparation for future crops, leaving the surface rough, to mellow by exposure. Sow English and French beans, parsley, beet, capsicum, chili, cardoons, mustard, cress, lettuce, endive, eggplant, okra,

cape gooseberry, radish, rhubarb, round spinach, tomato, tobacco, cucumber, melons, pumpkins, vegetable marrow, carrots, parsnips, &c. Transplant cabbage, cauliflower, eschallots, &c. Plant Jerusalem artichokes, rhubarb roots, herbs, sea-kale, asparagus, ginger, earth nuts, &c. Sow rosella. In dry weather give recently planted fruit trees sufficient water at the roots, leaving the surface to be kept damp by a mulching of stable litter. Attend promptly to the disbudbing of grape vines; removing all suckers and superfluous shoots as soon as they appear. Tie up fruiting shoots to the trellises as they advance. Plant out strawberries. Graft apples and pears. FIELD.—Keep the land clean and loose among growing crops. Plant arrowroot, yams, sweet potatoes, tobacco, &c. Sow imphee, sorghum, and maize for green fodder.

OCTOBER corresponds to April in Great Britain: the weather begins to be unpleasantly hot, with occasional thunder and some times heavy hail storms. In October 1878 the weather was very much warmer than usual during the month, the mean shade temperature, 73.9 deg., being 2.8 deg. over the average of this month for the previous ten years, and 1.9 deg. over the average of the previous three years. The highest reading in shade, 97.0 deg., was on the 15th; the lowest on grass, 49.5 deg., was on the morning of the 13th. The mean barometric reading, 30.061 inches,

was 0.003 inches above the average of the month; the highest, 30.295, was at 9 a.m. on the 13th, and the lowest, 29.468, at 3 p.m. on the 10th. Rain (which varies much in quantity during this month) fell on 7 days; the total fall, 2.27 inches, being 0.39 inches under the average of the month for the previous ten years; the greatest fall during 24 hours, 1.30 inches, was on the 26th. The total rainfall for the year 1878 to 31st October, was 39.95 inches, on 92 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR OCTOBER.

GARDEN AND ORCHARD.—Keep the crops clean: mulch them and give water where necessary. Vegetables should not be overcrowded during their summer growth. Sow parsley, English beans, French beans, mustard, cress, lettuce, endive, okra, radish, round spinach, beet, vegetable marrow, melon, carrot, cucumber, tomato, rosella, &c. Sow St. John's Day cabbage, which is the best for summer culture, being early, hardy, of fair quality, and withstanding heat, dry weather, and aphid, better than any other. Convert all waste vegetables into manure in some form: either feed to pigs, throw them into the tank to rot, or burn them out of the way, and use the ashes. Thin out the fruit on China peaches of all the kinds, and carefully eradicate the suckers which spring from the root, cutting them close to their origin neatly with a knife. Remove also the strong watery shoots which fill up the inside

of the tree, so as to admit sun and air, and leave the whole strength of the plant to mature the crop. Support the branches of the trees as the fruit swells. Examine the orange trees, and if either thrip, smut, cocoon, or fungus appear on the stems, scrub them as recommended in June. Tie up the vines as they grow, being careful not to injure the foliage (which performs the function of both lungs and stomach for the plant), and see that the fruit is sufficiently protected from the direct rays of the sun. Sulphur the vines upon the first appearance of Oidium. Plant bananas and pine apples. Trench and drain the land intended for planting with fruit trees in the winter: and if well cultivated, one crop taken from it, would improve its texture.

FIELD.—Clean and earth up growing crops. Plant yams, earth nuts, coffee, arrowroot, ginger, sweet potatoes, &c. Sow sorghum, imphee, &c.

NOVEMBER corresponds to May in Great Britain. Summer has now fairly set in, and the heat begins to be oppressive; though the nights on elevated positions are cool and pleasant. In November 1878 the weather was much warmer than usual during the month, the mean shade temperature, 78.1 deg., being 2.8 deg. over the average of this month for the previous ten years, and 0.3 deg. over the previous three years. The highest reading in shade, 104 deg., was on the 20th; the lowest on grass, 56.0 deg., was on

the morning of the 8th. The mean barometric reading, 29.974 inches, was 0.025 inches above the average of the month; the highest, 30.280, was at 9 p.m. on the 7th, and the lowest, 29.656, at 3 p.m. on the 26th. Rain (which varies much in quantity during this month) fell on 10 days; the total fall, 3.39 inches, being 0.79 inches under the average of the previous ten years; the greatest fall during 24 hours, 1.95 inches, was on the 2nd. The total rainfall for the year 1878 up to November 30th, was 43.34 inches, on 102 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR NOVEMBER.

GARDEN AND ORCHARD.—As the season advances the advantage of having trenched the garden land will become more apparent. Shallow unmanured land will scarcely grow anything worth collecting in hot dry weather. At this season, the beds should have the ridges laid across the hills in sloping ground, so as to catch the showers. Thin cucumber and melon beds where overcrowded, and loosen the soil if it is bound. Fasten down the shoots with wooden pegs so as to cover the ground evenly; it steadies the plants and protects them from much injury from wind during storms. Sow French beans, melons, broccoli, Brussels sprouts, mustard, cress, cucumbers, lettuce, endive, celery, okra, radish, rosella, pumpkins, &c. Thin the early peaches as soon as the fruit is fit for cooking. Mulch the trees a considerable distance around the stems. Clear out all superfluous shoots to throw the whole strength of the plant into the crop:

not injuring or removing any of the foliage unnecessarily. Remove suckers from grape vines, stop straggling branches, and rub off weak ill-placed shoots. Vigorous old Isabella vines, upon having the ripest of the present season's rods pruned during this and next month, will give a second crop of fruit. The cuttings also, if planted, will form strong roots before the planting season. Apricots and China peaches should be budded. Plant banana and pine apple suckers. Trench land intended for planting next season, to give it the sweetening influence of the summer's sun.

FIELD.—Keep the land clean with the horse-hoe. Stop tobacco plants as required, to direct the sap into the leaves intended for the crop, and remove caterpillars. In making oat hay, cut the crop when well in ear, but before the seed is near mature: the whole plant is then in its most nourishing condition.

DECEMBER corresponds to June in Great Britain. It is a month of usually fierce sunshine and cloudless skies; the nights are sometimes pleasantly cool. In December 1878 the weather was a little warmer than usual during the month, the mean shade temperature, 78.6 deg., being 0.1 deg. over the average of this month for the previous ten years, and 1.0 deg. under the previous three years. The highest reading in shade, 102.5 deg., was on the 3rd; the lowest on grass, 61.0 deg., was on the morning of the 1st. The mean barometric

reading, 29.854 inches, was 0.070 inches, under the average of the month; the highest, 30.083 inches, was at 9 a.m. on the 20th, and the lowest, 29.570, at 3 p.m. on the 29th. Rain (which varies much in quantity during this month) fell on 22 days; the total fall, 12.99 inches, being 7.79 inches over the average of the previous ten years; the greatest fall during 24 hours, 4.10 inches, was on the 13th. The total rainfall for the year 1878 was 56.33 inches, on 124 days.

GARDEN, ORCHARD, AND FARM CALENDAR FOR DECEMBER.

GARDEN AND ORCHARD.—The seeds should be protected during the summer months from the direct rays of the sun by some light cover a foot or two above the ground. Thin calico or light open brushwood, not too dense, would be suitable. If the seed beds were well watered with liquid manure, so as to thoroughly soak the soil, a few hours before sowing the seed, and the latter was covered by sifting over it some stable litter, there would not be many failures even in summer. Sow cabbage, cauliflower, French beans, mustard, cress, lettuce, endive, okra, radish, &c. All vacant land should be well manured and dug two spits deep. Manure and dig as the crop comes off, and the land will be ready for planting after the first shower. Place straw under the peach trees upon which the fruit may fall without bruising. Straggling wood shoots should be stopped, to

keep the trees in form, and prevent the weaker branches being robbed of their share of nourishment. Trench and manure land intended for planting with fruit trees or vines. On the slightest appearance of oidium among the vines, or American blight among the apples, dress them as previously directed. Those who object to the use of sulphur and lime in their dry state may boil one pound of sulphur and one pound of lime in a gallon of water for half-an-hour. One pint of this when strained may be mixed with ten gallons of water and applied to the affected vines with a syringe.

FIELD.—Keep crops clean. Dig potatoes as soon as ripe, as they will not keep in the soil; and have them collected as they are dug, or the sun will cause them to rot. Plant maize.

From this Table the time of High Water on any day during 1880 for the Ports mentioned may be found.

RULE.—To or from the time of High Water at Brisbane Bar for the given day (to be found in the Calendar on previous pages) add or subtract the constant (tide interval).

EXAMPLE.—To find high water A.M. and P.M. at Wide Bay on March 14, 1880:—High Water at Brisbane Bar on that day is 11.36 a.m., and 11.53 p.m., subtract the constant for Wide Bay 1.35, and the result is 10.1 a.m., and 10.18 p.m.

THE COLONY OF QUEENSLAND.

THE Colony of Queensland, the youngest of the Australian dependencies—its separate existence dating only from December 10th, 1859—comprises the whole of the North-Eastern portion of the Continent of Australia; its boundaries being—on the North the Gulf of Carpentaria, on the East the Pacific Ocean, on the West the Northern Territory of South Australia—the dividing line being the 141st meridian of longitude from the 29th to the 26th parallel, and thence the 138th meridian—and on the South the Colony of New South Wales. Its estimated area, according to a corrected return, is 669,520 square miles, or 428,492,800 square acres, being about twelve times the size of England and Wales. On August 1, 1879 this area was considerably increased by the annexation of a number of islands contiguous to the Coast. Its extreme length from North to South is 1300 miles, its breadth 800 miles, the coast line being about 2550 miles.

Below will be found some of the principal statistics of the year 1878. Fuller information of the rise, progress, and present condition of the Colony, and descriptions of all the important Towns, will be found in the "AUSTRALIAN HANDBOOK."

POPULATION.—The population of Queensland according to the census taken in May, 1876, was 173,283 persons—105,009 males and 68,274 females; this is exclusive of the aboriginal population, but inclusive of 10,412 Chinese. On December 31, 1878, it was estimated at 210,510—127,608 males, 82,902 females. During the year there were 7397 births, 4220 deaths, and 1444 marriages.

REVENUE AND FINANCE—PUBLIC DEBT.—The gross revenue for the year ending June 30, 1879, was £1,462,135 4s., being a decrease on the previous year of £99,410 7s. 10d. The principal heads of revenue were as follow:—Customs, £511,131 16s. 2d., a decrease of £60,599 10s. 1d.; Excise, £36,453 17s. 4d., an increase of £3231 7s. REGISTRATION OF BIRTHS, MARRIAGES, AND DEATHS.

Every birth must be registered within sixty days, and every death within thirty days next thereafter respectively; and neglect of this regulation renders the parties, whose duty it is to register, liable to a fine not exceeding £10. If sixty days have elapsed from the date of birth, the law requires the parent, or other person making the application to register such birth, to pay a fee of three shillings (since September 1st, 1879), and to make a solemn declaration of the facts before a Justice of the Peace, prior to the registration. If possible in all cases the father or mother ought to sign as informant. If unable to write, let a mark be made. No birth can be registered after three years have elapsed from the date thereof.

Every Minister who has celebrated a marriage shall, within one month thereafter, transmit (in accordance with the Act 28 Victoria No. 15) the original certificate to the Registrar of the District, and every Minister who shall fail to transmit the certificate to the District Registrar, shall be liable to a fine of not less than £10 and not exceeding £50. Marriages must be solemnised between the hours of 8 a.m. and 8 p.m. Persons under age must produce the written authority of parents or guardians, signed by them in the presence of a Justice of the Peace, Registered Minister, or District Registrar, or the marriage cannot take place.

In every case of burial, the Minister or officiating person ought to receive from the undertaker or person having charge of the funeral, a certificate from the District Registrar, certifying the registration of the death—unless in the case of inquest, when a certificate from the Coroner or Magistrate holding the inquest, will be sufficient; and if any dead body shall be buried without such certificate, the person who may bury the same, or perform any funeral or religious service for the burial, or who shall in any way dispose of the body, shall forthwith give notice of the facts to the District Registrar; and Undertakers are bound under a penalty not exceeding £10 to lodge with the District Registrar, immediately after the burial, a Certificate of such burial signed by themselves and countersigned by two witnesses.

DISEASES IN SHEEP ACT OF 1867.

The following amended Scale of Charges has been fixed for the keeping and dressing of imported sheep whilst in quarantine in lieu of those published in the *Government Gazette* of September 12, 1863:—

KEEP AND SUSTENANCE.		s.	d.		
For every day or portion of a day, per sheep	at the port of Brisbane	..	0	For more than five and not exceeding ten, belonging to the same owner, per sheep	3 0
At any other port, not exceeding	..	0	9	For more than ten, and not exceeding twenty belonging to the same owner, per sheep	2 6
DRESSING.		s.	d.		
For the first and only sheep	..	10	0	For over twenty belonging to the same owner, per sheep	1 6
For more than one and not exceeding five, belonging to the same owner, per sheep	..	5	0		

INSPECTORS OF SLAUGHTER HOUSES.

The Sergeant or Senior Constable in the respective localities is the appointed Inspector of Slaughter Houses, and of Cattle intended for slaughter.

POSTAL AND TELEGRAPHIC INFORMATION.

All Letters, Packets, and Newspapers posted in Queensland, that are required to be prepaid, must bear Queensland Postage Stamps.

LETTERS.

Town Letters delivered within the limits of the

town where posted, not exceeding 4oz. 1d.
Every additional 4oz. or part .. 1d.

Country Letters not exceeding 4oz. .. 2d.

Every additional 4oz. or part thereof .. 2d.

Letters or packets containing gold—

Not exceeding 4oz. .. 4d.
Every additional 4oz. or part thereof .. 4d.

Letters to any of the Australian Colonies—

Not exceeding 4oz. .. 2d.
Every additional 4oz. or part .. 2d.

OVERLAND to Victoria and South Australia—

Not exceeding 4oz. .. 4d.
Every additional 4oz. or part thereof .. 4d.

Letters to Great Britain, via Southampton, by

Torres Strait or P. & O. route, or via California—
Not exceeding 4oz. .. 6d.
Every additional 4oz. or part .. 6d.

Via Brindisi—

Not exceeding 4oz. .. 8d.
Every additional 4oz. or part .. 8d.

The rates above mentioned for English mail letters apply to the Torres Strait, San Francisco, and the P. and O. routes. Letters should be marked "via MELBOURNE" if to be sent by the P. and O. route, and "via CALIFORNIA" if to be sent by the Californian mail—otherwise they will be forwarded by the Torres Strait Mail.

In connection with the P. and O. fortnightly mail, which comes into operation on February 1st, 1880, some changes in the postal rates may be made.

The late fee on letters is, Colonial or Intercolonial, 3d.; Foreign, 6d.; to be paid by affixing to the letter the necessary postage stamps. Late letters can be posted on board the steamers up to the time of sailing.

POSTAL INFORMATION—Continued.

Letters, packets, or newspapers can be registered by affixing a fourpenny stamp in addition to the proper postage. The letter must be given to the post official, who will give a receipt for it. The adoption of registration is strongly urged in all cases where money, notes, or packets of value are sent, as the precautions taken with registered letters almost ensure their safe delivery.

TOWN DELIVERIES.—In Brisbane there are three daily, at 8.30 a.m., 2 p.m., and 4.30 p.m.; on Saturday afternoons there is no delivery in the business part of the city; in the suburbs there is one delivery daily. In Ipswich two deliveries at 9 a.m. and 3.40 p.m. In Rockhampton one regular delivery at 2.30 p.m., and another at 9 a.m. when steamers arrive before that hour. In Toowoomba two deliveries at 9 a.m. and 2 p.m. In Maryborough one regular delivery at 9 a.m., and at later hour when steamers arrive with mails from the south before 2 p.m. In Warwick one delivery at 9 a.m. In Dalby one delivery at 10 a.m. In Sandgate two deliveries at 11.45 a.m. and 6 p.m. In Gympie, One Mile Creek, Townsville, and Cooktown, one delivery.

POST OFFICE HOURS.—The Delivery Office is open from 9 a.m. to 6 p.m. daily, Sundays excepted.

The Dead Letter Office is open from 10 a.m. to 5 p.m., except on Saturdays, when it is closed at noon.

The Office for Registration of Letters is open from 10 a.m. to 5 p.m.

The Office for Sale of Stamps is open from 9 a.m. to 6 p.m.

GENERAL RULES.

Any letter or packet posted for the Australian Colonies, or the United Kingdom, will, if a single rate of postage be affixed, be forwarded and charged on delivery, with the postage deficient, and a fine of a single rate of postage; but if any letter or packet does not bear that amount of postage, it will be opened and returned to the sender if known; if not known, the letter will be sent on and charged on delivery as above.

Inland letters inadvertently posted unstamped or insufficiently stamped, will be forwarded to the destination, but a fine of double the deficiency will be charged on delivery.

Any letter or packet posted for transmission to British Colonies (excepting the Australian Colonies and New Zealand), and to Foreign Countries (a few places excepted), whether sent direct or through the United Kingdom, will invariably be opened and returned to the sender unless it bears the *full amount* of postage payable thereon.

Letters and packets, on being *re-directed*, are charged the same amount of postage, in addition to the original postage, as would be payable if such letter or packet were originally posted at the place of re-direction.

A postmaster may refuse to receive or transmit by post any letter, packet, or package of newspapers, exceeding sixteen ounces in weight, or of inconvenient form or dimensions, or containing, or reasonably suspected to contain, any article likely to injure the other contents of the mail bags or any person.

On General Holidays the Offices are only open from 9 a.m. to 10 a.m., and there is only one delivery by letter carrier.

UNCLAIMED LETTERS.

Letters, packets, and newspapers, if not claimed, are kept at the Post-office to which they are directed for a period of one month. If not claimed at the expiration of that time, they are sent to the Dead Letter Office, and the letters are then advertised in the Government Gazette. Queensland letters, (that is, letters posted within the colony) if not claimed within one month from the date of such publication, are returned to the writer. Intercolonial letters (that is, any letters posted in any of the Australian Colonies or New Zealand), if not claimed within three months from the date of such publication, are returned unopened to the colony from which they were received. British and foreign letters (that is, letters posted in the United Kingdom, or at any place beyond the Australian Colonies), if not claimed within twelve months from the date of such publication, are returned unopened to the Colony or Country from which they were received.

PRIVATE LETTER BOXES.

These may be obtained on the following terms, viz :—

Without lock, £1 1s. per annum, payable half-yearly in advance.

With lock, £1 5s. per annum, payable in advance; and a deposit of 15s. when box is applied for, of which amount 10s. will be returned, when use of box is discontinued, provided the box is in good order and keys (triplicate) are given up complete. If the lock is rendered useless by loss of the keys or by any damage, the whole amount deposited will be forfeited. A new lock and keys will be supplied at any time, if required, on additional payment of 7s. 6d.

PRIVATE BAGS.

Settlers, upon Mail Routes, requiring the accommodation of a private bag, can obtain the same from either of the two Post Offices next to them upon payment (in advance) of a sum not exceeding Two Guineas per annum to the Postmaster, who has to make up the bag, subject to the following regulations, viz :—

(1) The bag must be of leather, and provided at the cost of the person requiring it. (2) The Postmaster will close and seal securely before despatching it; and it must be returned in like manner, sealed with some seal, the impression of which is known by the Postmaster. (3) The bag may contain letters for all persons who give *written authority* to the Postmaster to enclose them. The person paying for the private bag is responsible for the postage of all unpaid letters, and for the receipts for all those which may be registered.

NEWSPAPERS.

Newspapers are transmitted within the Colony, and to the neighbouring Colonies, free of charge, if posted within seven days from the date of publication; if posted after that period, one penny each. Newspapers received from beyond the Colony, in monthly parts, are (when re-posted) subject to a charge of 1d. for every number contained therein.

Postage on Newspapers to the United Kingdom, 1d.; or, via Brindisi, not exceeding 4ozs., 2d.; every additional 4 ozs. or fraction, 2d.

Newspapers to be sent without a cover, or in a cover open at both ends, but without enclosure, mark, or communication, other than the words "Newspaper only," the printed name, occupation, and address of the publisher or vendor, in addition to the name, occupation, and address of the person to whom sent, otherwise they will not be transmitted. Newspapers re-posted in the Colony must be prepaid, 1d. each.

BOOK AND OTHER PACKETS.

Bankers' packets, containing notes, orders, cheques, pass-books, returns or other periodical statements; packets containing process of, or proceedings or pleadings in, any Court, briefs, cases, and instructions for

POSTAL INFORMATION—Continued.

counsel, and their opinions thereon respectively, deeds, affidavits, policies of insurance, letters of attorney, depositions, or recognizances, patterns or samples of merchandise, having no intrinsic value, either unenclosed or enclosed in transparent bags, or in bags tied round the neck so as to be easily loosened and re-fastened; prices current and catalogues; vouchers, or returns, or copies of returns, made by or to any officer in the public service; medical diplomas, certificates, (partly written and partly printed), scrip, pamphlets, maps, plans, specifications, music, photographs (on paper), magazines, reviews, placards, almanacs, prospectuses, paintings, engravings, printers' proofs, or periodical publications, other than newspapers: printed or plain books, writing paper and envelopes, seeds (in transparent bags or papers, tied so as to be easily loosened and re-fastened, not exceeding 16 ozs. in weight), can be sent through the Post-office at the under-mentioned rates:—

For Queensland—				For the United Kingdom (via Southampton) and Australian Colonies—			
Not exceeding 2 ozs.	..	..	1d.	Australia Colonies—	..	..	1d.
Above 2 ozs. but under 4 ozs.	..	..	2d.	Not exceeding 1 oz.	..	..	1d.
Above 4 ozs.	..	..	3d.	Not exceeding 2 ozs.	..	..	2d.
Above 6 ozs.	..	..	4d.	Not exceeding 4 ozs.	..	..	4d.
Every additional 2 ozs. or part thereof	..	..	1d.	Every additional 4 ozs or part thereof	..	..	4d.

For the United Kingdom, via Brindisi, under 1 oz., 5d.; under 2 oz., 6d.; 4 oz., 6d.; and each additional 4 oz., 6d.

NOTE.—The books or packets must be in covers opened at the ends or sides for inspection, have the contents legibly marked, must not exceed 3lb. in weight, nor the dimensions of two feet in length by one foot in width and depth, and must not contain any letter or writing save the address and the name and address of the sender. Packets in which these rules are infringed, or which are posted insufficiently stamped, will be returned to the sender, except in the case of the United Kingdom, where short postage will be charged and also a fine on delivery.

MONEY ORDERS.

MONEY ORDERS may be obtained between the hours of 10 a.m. and 3 p.m. (except on Saturdays, when the offices close at 12 o'clock), and made payable at any Money Order Office in the Colony, on payment of the following charges:—

QUEENSLAND.—For any sum not exceeding £2, threepence; above £2 but not exceeding £5, sixpence; above £5 but not exceeding £7, ninepence; above £7 but not exceeding £10, one shilling.

INTERCOLONIAL.—New South Wales, South Australia, Victoria, New Zealand, Tasmania, Western Australia.—For any sum not exceeding £5, one shilling; exceeding £5 and not exceeding £10, two shillings.

No order will be issued for more than £10. Payment of a Money Order must be obtained before the end of the sixth calendar month after that in which it was issued.

Money orders may be transmitted by Telegraph between all Money Order Offices in Queensland, and between Queensland and any Money Order Office in New South Wales, Victoria, South Australia, Western Australia, and Tasmania, having telegraphic communication, on payment of the usual telegraph charge for a message, in addition to the Money Order commission.

BRITISH.—At any Money Order Office in the United Kingdom.—For any sum not exceeding £2, one shilling; exceeding £2 and not exceeding £5, two shillings and sixpence; exceeding £5 and not exceeding £7, three shillings and sixpence; exceeding £7 and not exceeding £10, five shillings.

GERMANY.—Under £2, two shillings; under £5, five shillings; under £7, seven shillings; under £10, ten shillings.

ELECTRIC TELEGRAPH.

The Telegraph Stations in Queensland are open to receive messages from 9 a.m. to 6 p.m. daily, Sundays excepted. On Sundays the officers are in attendance at 9 a.m. for the receipt or despatch of telegrams of urgent importance. On special occasions when messages may be received after office hours an additional charge of 50 per cent. on the ordinary charge is made.

Between any two stations in the Colony—

To stations in West Australia, (addresses charged)					
Ten words	..	..	..	4	0
Every additional word	..	..	..	0	4

Press messages are charged one-half the ordinary rates (except to the Colony of New Zealand), and are exempt from the additional charge for transmission after ordinary office hours.

At country post towns, where no electric telegraph station is opened, Postmasters have been appointed receivers of messages, which they will forward for transmission to the nearest electric telegraph station, by first post. Persons desirous of using this means of communication will hand their message to the postmaster, together with the cost of transmission, twopence for postage, and sixpence for the postmaster's fee. Message forms may be obtained on application to any such post-office, and the postmaster and station-master will furnish information as to the cost of transmission.

All messages will be held strictly confidential, should be written in ink, in a legible manner, in plain language, on a proper form, the address must contain all the information necessary to avoid delay and ensure delivery, and must be signed by the sender. Where numbers are stated, words as well as figures must be used. Charge will be made for the words only.

Payment of all charges in advance will be required, except the following: Replies to interrogatory messages which contain the words "Reply paid." Messages for transmission within the colony of Queensland, or to any of the Australian Colonies and New Zealand marked "Collect," when the sender is known to the officer in charge of the despatching station, and guarantees, in writing, that in the event of the message

not being paid for on delivery, it will be paid for on demand by the sender; in all such messages, the word "Collect" must be written by the sender as the last word of the message to be despatched; press messages to be paid for at receiving station on delivery.

When the sender wishes to pay for a reply, or to have the message repeated or posted, instructions are to be inserted in the address immediately before the name of the terminal station. Messages which are addressed beyond the limits of delivery can be posted to their destination free of charge.

Messages may be transmitted in *cypher* in the English language or *secret language*, but cypher words must not contain more than three syllables, and words in secret language must not average more than five letters; an additional charge of fifty per cent. to be made for messages containing cypher or secret language.

Messages will be delivered free within one mile of the station to which addressed. If beyond that distance according to the instructions contained in the address. Expenses incurred for portage, cab hire, or boat hire, payable by the receiver, will be charged. Messages addressed beyond the limits of delivery, or which do not contain special directions as to transport, may be posted to their address by the terminal telegraph station-master free of charge. The sender or receiver of message, on proving his or her identity may receive certified copies of messages on giving the date and paying a fee of one shilling for each copy. In the event of an interruption to communication by which messages may be unusually delayed, it will be optional with the senders, on application *before transmission*, to withdraw their messages and receive back the amount paid. If desired, messages of consequence can be repeated from stations at which received to stations at which originally sent, on payment of an additional half-rate; but no responsibility will be undertaken nor any claim for compensation entertained for any errors or mistakes in transmission or delay in delivery of messages.

A list of the Money Order Offices and Telegraph Stations will be found in the Postal Gazetteer.

INTERNATIONAL TELEGRAPH.

By the system of registration of name and address, and the adoption of the word scale of charging, the cost of telegraphing between Brisbane and London, and many of the leading cities of India, China, Japan, Europe, United States, and other countries, has been greatly reduced. It may be necessary to explain that the name and address of the sender and receiver being registered at the points of departure and arrival, a single word, letter, or number serves for their identification.

The principal conditions under which messages are transmitted are as follows:—

Words must not exceed ten letters. Only ordinary dictionary words allowed. Groups of figures will be charged at the rate of five to the word. Cypher telegrams may be used, but if so, must be collated, that is, repeated back in their entirety from station to station, for which half-rate additional will be charged.

Registration can be effected at the Central Telegraph Office, Brisbane. No fee is charged. Messages can also be sent through Reuter's Telegram Co. and the Oriental Co., both of which have agents in Brisbane.

GAZETTEER OF POST TOWNS,

TELEGRAPH STATIONS, MONEY ORDER OFFICES, SAVINGS BANKS, AND RAILWAY STATIONS,

WITH TIMES OF DEPARTURE OF MAILS FROM BRISBANE.

EXPLANATION.—The name of Post Town or Post Office is first given, then follows its distance and bearings from Brisbane (or other town when specially mentioned), if a Money Order Office, Telegraph Station, Government Savings Bank, or Railway Station, Population (Census 1876) name of Postmaster or Postmistress, and the Day of Departure of the mail from Brisbane. When the locality is simply a Telegraph or Railway Station, it will be found indicated by the words "Tel. Station only," or "Railway Station only." Distances are in some cases approximate only.

ABBREVIATIONS.—N. S. E. W. for the points of the compass; Tel. Stn. for Telegraph Station; Ry. Stn. for Railway Station; Pop. for Population; Mon. Tu. Wed. Th. Fri. Sat. for the days of the week.

The Steamers for the South—Sydney and Melbourne—generally leave the Brisbane Wharf at 12 noon, the mails closing at 11.15, though letters can be posted on board to the last moment.

The Steamers for the North—Maryborough, Rockhampton, and intermediate Ports—usually leave the Brisbane Wharf on Tuesdays, at 1 p.m., the mails closing at 12.15.

The regular Mail Steamers for the North—Cooktown being the terminal Port—leave the A.S.N. Co.'s Wharf, Brisbane, on Saturday mornings at 9 o'clock.

Letters for the inland mails can be posted at the General Post Office up to 8 o'clock p.m. In consequence of the alteration of the Railway Time Table, Mails for the South and West transmitted by Rail now close at 8 p.m. the previous night, instead of at 8 a.m. as heretofore.

SIGNALS IN USE AT BRISBANE OBSERVATORY.

The numbers of the Flags may be easily recognised from their comprising as many divisions or stars as they are intended to represent. Any number higher than nine is indicated by one Flag over another—3 over 5 indicating 35. When two of the same figure require to be shown, as 11 or 22, the white Flag is used to indicate the second number—Eleven would be shown by the Flag for 1 and the substitute beneath it.

DESCRIPTIVE FLAGS.

Blue and Yellow Chequer.—Steamer.

Blue Flag.—Ship or Barque.

White Flag with Red Square in Centre.—Brig.

Red Flag with Yellow Square in Centre.—Schooner

Yellow Flag with Blue Square in Centre.—Cutter.

Flag divided diagonally into four parts, each side quarter, blue, and top and bottom quarter, red

—A. S. N. Company's Steamers.

ENGLISH MAIL SIGNALS.

The arrival of the English Mail in any of the adjoining colonies is denoted by the hoisting of a flag on the Observatory, which is kept flying for two hours. The colour of the ensign indicates the particular Mail that has arrived, as follows:—

WHITE ENSIGN.—Torres Strait Mail

BLUE ENSIGN.—San Francisco Mail

RED ENSIGN.—P. & O. Mail (via Melbourne).

EXPLANATION OF SIGNALS.

The Numeral Flags show the Port whence the vessel is coming. The hoisting of the numeral Pendant ABOVE Descriptive Flag shows that two or more vessels of the same description are arriving from the same port.

Descriptive Flag (see above) at the North or South Yard-arm—denotes a vessel to be in sight North or South of Cape Moreton, according to the Arm on which it is hoisted.

Second Distinguishing Pendant below Descriptive Flag—Shows that the Steamer is entering the South Passage.

Signal from mast-head—The vessel or steamer is entering the Port.

White Flag under Descriptive Flag—Steamer is coming up the River.

Third Distinguishing Pendant below Descriptive Flag—Steamer going to anchor below Flats, waiting tide.

First Distinguishing Pendant below Descriptive Flag—Vessel returning to Port.

Third Distinguishing Pendant below Signal—Vessel at the Bar; entered Port over night.

Union Jack above descriptive Flag—Vessel with Governor on board.

Red Ensign above usual Signal—Vessel with Immigrants on board.

Red Ensign below usual Signal—Steamer with English Mail.

Ball at Yard-arm, with descriptive Flag under—Vessel passing the Port.

Union Jack below descriptive Flag—Ship of War.

Numeral Pendant below Descriptive Flag—Vessel with troops.

THE PROTECTION OF NATIVE BIRDS.

As the Regulations providing for the Protection of Native Birds in Queensland do not appear to be generally known, it is thought that their reproduction in the present Edition of the Almanac would be of service. The Original Act, No. 7 of 41 Vict., was assented to on August 10th 1877. An Amending Act, No. 16 of 41 Vict., received the Royal assent on November 1st 1877, and on March 4, 1879, a proclamation was gazetted altering the periods fixed as the close or Breeding Season. The Original Act known by its short title of "The Native Birds' Protection Act of 1877," commences by stating that, as the Native Birds are rapidly disappearing from some parts of the Colony, it is expedient to protect them and their progeny, and that the following regulations had been enacted.

1. For the purposes of this Act the term "Native Bird" shall mean and include all birds mentioned in the Schedule of this Act and such other birds as the Governor in Council shall from time to time by proclamation published in the *Gazette* declare to be subject to the operation of this Act.

2. The period of the year during which this Act shall be in operation as regards native birds shall be from and after the first day of October to first day of March in each year or such other period as the Governor in Council may by proclamation in the *Gazette* from time to time direct. (See subsequent proclamation altering these dates.)

3. If any person shall wilfully kill or destroy any native bird within the period hereinbefore mentioned or shall use any instrument whatever net or any other means within the period aforesaid for the purpose of killing and destroying any native bird such person shall upon conviction forfeit and pay a fine of not less than one pound or more than five pounds and in default of payment undergo imprisonment for any term not exceeding three months.

4. If any person shall buy sell or knowingly have in his possession house or control any native bird at any time within the period hereinbefore mentioned he shall forfeit and pay a penalty not less than one pound or more than five pounds for every bird.

5. No person shall use a swivel gun or use a gun otherwise than fired from the shoulder for the purpose of wounding or killing any native bird and any person so offending shall upon conviction forfeit and pay any sum not exceeding ten pounds for the first offence and a sum not exceeding twenty pounds nor less than ten pounds for each subsequent offence.

6. Nothing in this Act shall extend or be construed to extend to any person being the owner of any native bird in confinement or in a domesticated state so far as such birds are concerned.

7. If any person shall be found offending against the provisions of this Act and shall not give his name and address and shall not deliver up any native bird or any instrument net or other means used to kill or destroy any such bird to any person who may demand the same it shall be lawful for such last mentioned person or any constable to summons such offender before the nearest Court of Petty Sessions to be dealt with according to law and any person who shall assault any such person so demanding such bird instrument net or other means of destruction shall forfeit and pay a penalty not exceeding five pounds besides any other penalty he may have incurred under this Act and forfeiture of any instrument net or other means used.

8. All offences under this Act may be heard and determined in a summary way before the nearest Court of Petty Sessions and if any person shall feel himself aggrieved at any decision given under this Act he may appeal to the next District Court held nearest to the place where such decision shall take place.

9. A moiety of every penalty recovered under this Act shall be paid to the person or persons laying the information.

10. This Act shall apply to the districts of East Moreton, West Moreton, Darling Downs, Wide Bay, Burnett, Port Curtis, Townsville, and such other districts as may from time to time be proclaimed by the Governor in Council.

SCHEDULE.—Wild Ducks of any species, Plain Turkey or Bustard, Wild Geese, Bronze-wing and all Wild Pigeons, Quail, Talegala or Scrub Turkey, Plover of any species, Cranes, Emus, Native Companions, Black Swans, Great Kingfisher (commonly known as the Laughing Jackass), Doves, Magpie (Organ Bird), Magpie Lark, Land Ralls (all species), Rifle Bird, Regent Bird, Curlews, Pheasants, Ibis, Lyre Bird, More Pork or Owl, Wagtail, Satin Bird and all Bower Birds, Cuckoos, Woodpeckers, Robins, Wrens, Finches, Larks, Water Ralls.

The Amending Act of November 1 contained but one clause to the following effect :

1. Nothing in the said Act (Native Birds' Protection Act) contained shall apply to any person killing native birds upon his own land for the *bona fide* protection of his own crops or to any servant killing native birds upon the land of his master by direction of such master for the *bona fide* protection of such master's crops or to any aboriginal killing native birds for his own food.

The proclamation of March 4, 1879, altered the period during which the Act was to be in force (October to March in each year) to the undermentioned dates:—June 1st to October 31st: Winter breeders, Emus; February 1st to April 30th: Autumn breeders, Ducks, Geese; February 1st to June 30th: Autumn and Winter breeders, Black Swans; August 1st to October 31st, and February 1st to April 30th: Spring and Autumn breeders, Native Companions, Cranes, Bustard or Plain Turkey, Herons and Bitterns, Ibis and Spoonbills, Curlews, Plovers and Dotterels, Pheasants, Rails, Quails, Pigeons and Doves, Lyre Birds, Scrub Turkeys (Talegalla and Megapodidae). *Useful and Ornamental Birds*.—August 1st to October 31st, and February 1st to April 30th: Spring and Autumn breeders, Kingfishers, Cuckoos, Laughing Jackass, Bower Birds (Regent, Satin, and others), Rifle birds, Magpies, Owls, Night Jars, Robins, Wrens, Finches, Larks, Magpie Larks, Woodpeckers, Water Rails.

THE NEW DIOCESE OF NORTH QUEENSLAND.

THE Diocese of North Queensland was formed in the year 1878. It comprises the northern half of the Colony, and extends from Cape Palmerston to Cape York. Previous to its formation into an independent diocese this portion of Queensland remained under the jurisdiction of the Metropolitan Bishop of Sydney, and was a relic of that early time when the whole of Australia was included within the one diocese of Sydney. As colonization advanced separate dioceses were formed, and it is proof of the progress made by Northern Queensland that it can claim a Bishop for itself. The Right Rev. G. H. Stanton, D.D., Hertford College, Oxford, and late of St. Giles-in-the-Fields, London, was consecrated by Queen's Mandate, in St. Paul's Cathedral, London, on June 24, 1878, by the Archbishop of Canterbury. The Rev. H. Plume, B.A., Corpus Christi College, Cambridge, and Incumbent of St. James', Townsville, is the Bishop's Chaplain. A. F. B. Chubb, Esq., is Registrar. Church affairs are managed by a representative Diocesan Council; but a Synod will be formed in conformity with the custom in other colonies. North Queensland is the twelfth diocese in Australia. NAMES OF THE CLERGY.—Rev. H. Plume, B.A., St. James' Church, Townsville, Rev. A. A. MacLaren, Trinity Church, Mackay, Rev. J. A. Ross, Trinity Church, Bowen, Rev. R. Hosken, Christ Church, Cooktown, Rev. T. W. Ramm, St. Paul's Church, Charters Towers, Rev. W. Puttock, St. Peter's Church, Ravenswood, Rev. B. Reed, B.A., Herbert and Cardwell District, Rev. C. E. DIRECTIONS FOR MAKING A WILL.

A WILL cannot be made in language too simple or concise: it must be written with ink, and must be signed at the end of each sheet (if there be more than one) by the testator in the presence of TWO or more witnesses.

The witnesses, *who must not be interested in the will*, must rigidly comply with every particular required by the attestation clause, at the end of which clause they must sign their names. A witness is not bound to know the contents of the will.

FORM OF A WILL.

This is the last Will and Testament of me
 made this _____ day of _____ One thousand
 eight hundred and _____ as follows. I give, devise,
 and bequeath all my messuages, land, tenements,
 and hereditaments, and all my household furniture,
 ready money, money secured by life assurance,
 goods and chattels, and all other my real and
 personal estate and effects whatsoever, unto my
 dear wife [or other person, as may be]

her heirs, executors, administrators, and
 assigns, to and for her and their own absolute use
 and benefit, according to the nature and quality
 thereof respectively, subject only to the payment
 of my debts, funeral and testamentary expenses
 and the charges of proving and registering this my
 will. And I appoint my said wife executor of this
 my Will, and hereby revoke all other wills.

In witness whereof I have hereunto set my hand
 the day and year above written.

Signed published and acknowledged by the
 said _____ as and for his last Will and
 Testament in the presence of us, who in his
 presence and at his request, and in the pre-
 sence of each other, have subscribed our
 names as witnesses.

A CODICIL.

To a will is to be made with the same regulations
 as the will itself, and may be written thus:—This
 is a codicil to my last Will and Testament, bearing
 date the _____ day of _____ 188____
 and which I direct to be taken as part thereof. I
 give, devise, and bequeath, &c. As witness my
 hand this _____ day of _____ 188____

NOTE.—Obliterations and alterations of any sort
 in a will ought if possible, to be avoided: when of
 necessity made, they must be signed by the Testa-
 tor and Witnesses on the margin, or as near to the
 alteration as possible.

Marriage after making a Will renders the Will
 void.

If a Witness is interested in the Will the claim to
 such interest becomes forfeit.

If a person wishes to dispose of all his property
 in one gift, the words "all my real and personal
 estate" may be used.

Personal Property left without a Will is
 devisable as under:—If the deceased should leave
 Children and no Widow, the whole property is to
 be divided equally among the Children. If he
 leave a Widow and Child or Children, the former is
 entitled to one-third, and the latter to the remain-
 ing two-thirds. If he leave a Widow and no Child,
 the former is entitled to half, and the next of Kin
 the remainder as follows:—A Father, the whole
 amount. If no Father; a Mother, Brothers, or
 Sisters, or their issue, equal portions. If
 none, Uncles, Aunts, Nephews and Nieces, equal
 portions.

COOKTOWN COURIER,

ESTABLISHED 1875.

THE first established Newspaper in the Cook District is published in Cooktown every Wednesday and Saturday morning.

The *Cooktown Courier* circulates generally among the Miners and Settlers on the Palmer, Hodgkinson, Normanby, Coen, Etheridge, Cloncurry, Charters Towers, Millchester, Rochford, and Ravenswood Goldfields; also in the Pastoral Districts of North and South Kennedy, Burke, Cook, Thursday Island, and at Port Moresby, New Guinea.

The *Cooktown Courier* contains the latest telegraphic intelligence from all localities, as well as reliable Mining News from the various gold-fields and inland districts.

It offers to Advertisers the especial advantages of bringing their announcements under the immediate notice of miners and settlers throughout the northern districts of Queensland, whilst it also possesses a large local circulation.

A liberal discount is allowed to Advertisers for standing advertisements.

F. C. HODEL, Proprietor.

THE GYMPIE MINER, AND ONE-MILE & MONKLAND ADVERTISER, IS PUBLISHED EVERY TUESDAY AND FRIDAY AFTERNOON,

And is the Leading paper on this Goldfield.

The *Miner* circulates largely in the town of Gympie, Wide Bay, and Burnett Districts, and all parts of the surrounding localities; also in Brisbane, Central parts of Queensland, and New South Wales, &c.

All intelligence with regard to Mining on this Goldfield and the surrounding district may be relied upon as strictly accurate: the crushings from the various mines on the several lines of reef being reported as they take place.

The terms for advertising are liberal, and an allowance made on repeated insertions. Special arrangements are made for standing Advertisements.

Subscription:—6s. per quarter in advance; single copies, 3d.

H. MARCUS, Proprietor.

THE NORTHERN MINER,

ESTABLISHED 1872,

CHARTERS TOWERS AND MILLCHESTER.

T. O'KANE, Proprietor.

Terms, paid in advance—Yearly, £1 15s. ; Quarterly, 9s. ; Advertisements, 3s. per inch ; every additional inch, 1s. 6d. On Advertisements inserted six consecutive times, 10 per cent. discount allowed ; thirteen times, 25 per cent. ; on 26 ditto, 50 per cent. ; on 39 ditto, 75 per cent.

Quarterly Advertisements—£1 5s. first inch ; 10s. every additional inch

THE WESTERN STAR

is now published at Roma, twice a week, and is issued on

MONDAYS AND THURSDAYS.

These days are chosen in order to suit the Mails.

The Subscription per annum is £1 8s., being only one shilling per quarter higher than for the weekly issue ; per quarter, 7s. 6d., payable, in both cases, in advance. The *Star*, having a very large circulation throughout the Western districts, is one of the best advertising mediums in the colony. Liberal discount allowed on standing advertisements.

QUEENSLAND PUNCH

Has by far the largest circulation of any similar publication in Australasia. The cleverest Artists in the colonies are employed upon it ; and its literary staff includes some of the most able literary men and women in New South Wales and Queensland.

Six Shillings in Stamps to the Publishers, Gordon & Gotch, will secure it for a Twelvemonth.

THE SYDNEY MAIL HAS BEEN EXTENSIVELY REMODELLED, AND  
IS ACKNOWLEDGED

### THE BEST FAMILY NEWSPAPER IN AUSTRALIA.

**A**USTRALIAN LADIES—A full page of READING for LADIES is given in every issue of the *Sydney Mail*. The scope of the articles is not circumscribed by the conception, frequently apparent in the "Ladies' column" of newspapers, that only Fashions and Frivolities have interest for women. Extracts of Items of News or of valuable ideas bearing upon feminine occupations and requirements are sought from every source, far and wide, while the lighter topics of Fashion, Society, &c. receive particular attention—special Lady Correspondents supplying from London, letters devoted to chit-chat and to the Fashions, which latter are handsomely illustrated.

**T**HE ILLUSTRATIONS in the *Sydney Mail* are designed by the best Artists in N. S. Wales, and executed by the best available engravers. They represent all current events capable of pictorial treatment, and are a special attraction. For subjects demanding large and free treatment lithography is frequently employed.

**L**ITERARY MATTERS are especially attended to in the *Sydney Mail*. Original contributions by the best Australian writers—including such names as Marcus Clarke, the Rev. J. E. Tenison-Woods, F.G.S., F.L.S., &c., N. Walter Swan, the Rev. A. C. Geekie, D.D., Henry Kendall, &c., &c.—are constantly appearing in its columns, and from all sources a plentiful selection of the most curious and interesting extracts is chosen and published in each week's issue.

**C**HILDREN will find a page all to themselves. Pretty little original stories inculcating useful lessons, without being in the least degree formal or dull; Little Jokes for youngsters, and Evening Pastime of Riddles, Enigmas, &c. have made the *Sydney Mail* a great favorite with young people.

**R**EADERS IN THE COUNTRY DESIRING a newspaper for general news, information, and amusement, will do well to subscribe to the *Sydney Mail*. It is the most useful Family Paper published in the colonies.

**F**ARM NOTES FOR THE MONTH, PASTORAL and agricultural notes, the weather, agriculture, pasture, and condition of Stock, news from the provinces, produce, cultivation, &c., are edited by a gentleman of multifarious experience in all matters touching the soil and its products, occupy several pages of the *Sydney Mail*, and so make it a paper for all interested in agricultural and pastoral pursuits.

**T**HE LATEST EUROPEAN AND INTER-COLONIAL TELEGRAMS are given in the *Sydney Mail*.

**T**HE NEWS OF THE WORLD is especially and exhaustively collated for publication in *The Sydney Mail*, which gives its own assortment of news, and is not, as many weekly papers are, a mere reprint of a daily journal.

The *Sydney Mail* is so arranged as to be not a merely local publication, but **A FAMILY JOURNAL FOR ALL THE COLONIES.**

In addition to the Illustrations in the body of the paper—**NOBLE ART SUPPLEMENTS ARE ISSUED PERIODICALLY.**

**THE SERIAL STORIES ARE BY THE BEST AUSTRALIAN TALENT,** the proprietors having recently awarded £100 for the best tale submitted in competition for the Mail; and having arranged for a constant supply of Fiction by Australian Authors.

Subscription to the *Sydney Mail*: 6s. 6d. per quarter, 13s. per half-year, or 26s. per annum.
